**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Having fair broadband competition is critical in continuing to provide better service options for consumers. Without it, we'd still be using dial-up baud modems of yesterday. Having digital access in an ever more connected world, will ensure consumers can stay relevant with work, education, and media. Having the most effective and efficient access to a digital world should be a core service available at an affordable cost without fear of price hikes from giants wanting fatter profits without better service.

Thanks.

JJ Lara
